

REMARKS

Reconsideration of the subject application is respectfully requested. Applicants thank the Examiner for the allowance of Claims 7-24.

With regard to paragraph 1 of the Office Action, the consent of assignee was filed on December 1, 2003, and was received by the Patent Office on December 5, 2003. A copy of the consent of assignee is appended to this Remarks section, as well as a copy of the stamped post card evidencing its receipt by the Patent Office.

With regard to paragraph 4 of the office action, the applicants respond as follows:

- (i) applicants agree with the Examiner's interpretation of "a first delay means" and/or "a signal delay control unit" as corresponding to signal delay circuit 79₁ in Fig. 6;
- (ii) "a second signal delay means" corresponds to flip flops 78a and 78b in Fig. 6;
- (iii) "a first delay time" corresponds to a time from t_2 to t_4 in Fig. 8;
- (iv) "a second time delay" corresponds to delay time caused by "a second signal delay means," which corresponds to flip flops 78a and 78b in Fig. 6; and "a specific time delay" corresponds to "a first delay time," which is a time from t_2 to t_4 in Fig. 8.

Two minor errors were corrected in the claims. In Claim 7, line 13, "responsive" was changed to "in response"; and in Claim 24, line 20, "the

ACTIVE/INACTIVE” was changed to “an ACTIVE/INACTIVE.” In view of the foregoing amendments and remarks, Applicants respectfully request favorable reconsideration of the present application.

Respectfully submitted,

/Mark P. Watson/
